Docket No.: 1573.1009   Serial No. 09/981,982

IN THE CLAIMS:

The text of all pending claims, (including withdrawn claims) is set forth below. Cancelled and not entered claims are indicated with claim number and status only. The claims as listed below show added text with underlining and deleted text with strikethrough. The status of each claim is indicated with one of (original), (currently amended), (cancelled), (withdrawn), (new), (previously presented), or (not entered).

Please AMEND claims 3, 9, 16, 20, and 21 in accordance with the following:

1.   (CANCELLED)

2.   (CANCELLED)

3.   (CURRENTLY AMENDED) An information processing apparatus, comprising: having a processor and a memory device;

said a processor receiving a content transmission request including a content identification of a content determined by a user and an address of a receiving device determined by said user which is to receive data of said content, from a separate device different from said receiving device, over a mobile communication network,; and

said processor transmitting, over a broadband network, said received content identification and said received address of said receiving device to a content data providing information processing apparatus which provides said content data, wherein the content data is adapted to be provided by said content data providing information processing apparatus to said receiving device over said broadband network.

4.   (ORIGINAL) The information processing apparatus according to Claim 3 wherein said processor transmits a Web page containing said content identification to said separate device over said mobile communication network.

5.   (ORIGINAL) The information processing apparatus according to Claim 3 wherein said processor transmits further a user identification of the user to said content data providing information processing apparatus.

6.   (CANCELLED)

7.   (CANCELLED)

8.   (CANCELLED)

9.   (CURRENTLY AMENDED) An information processing apparatus, comprising: having a processor and a memory device;

said a processor receiving a content transmission request including a content identification of a content determined by a user and an address of a receiving device determined by said user which is to receive data of said content, from a separate device different from said receiving device over a mobile communication network,; and

said processor transmitting a content capturing request including the content identification to said receiving device over a broadband network,, wherein the content data is adapted to be received by said receiving device over said broadband network from a content data providing information processing apparatus.

10.   (ORIGINAL) The information processing apparatus according to Claim 9 wherein said processor transmits a Web page containing said content identification to said separate device over said mobile communication network.

11.   (ORIGINAL) The information processing apparatus according to Claim 9 wherein said processor transmits further a user identification of the user and a password to said receiving device.

12.   (CANCELLED)

13.   (CANCELLED)

Docket No.: 1573.1009   Serial No. 09/981,982

     14.   (CANCELLED)

     15.   (CANCELLED)

     16.   (CURRENTLY AMENDED) A program stored on a recording medium for use in an information processing apparatus, said program being operable to ~~control the apparatus to:~~ effect the steps of:

~~receiving~~ receive a content transmission request including a content identification of a content determined by a user and an address of a receiving device determined by said user which is to receive data of said content, from a separate device different from said receiving device over a mobile communication network; and

~~transmitting~~ transmit, over a broadband network, said received content identification and said received address of said receiving device to a content data providing information processing apparatus which provides said content data~~,~~ wherein the content data is adapted to be provided by said content data providing information processing apparatus to said receiving device over said broadband network.

     17.   (ORIGINAL) The program according to Claim 16 wherein said program is operable to effect the step of transmitting a Web page containing said content identification to said separate device over said mobile communication network.

     18.   (CANCELLED)

     19.   (CANCELLED)

     20.   (CURRENTLY AMENDED) A program stored on a recording medium for use in an information processing device, said program being operable to ~~control the apparatus to:~~ effect the steps of:

~~receiving~~ receive a content transmission request including a content identification of a content determined by a user and an address of a receiving device determined by said user

Docket No.: 1573.1009   Serial No. 09/981,982

which is to receive data of said content, from a separate device different from said receiving device over a mobile communication network; and

~~transmitting~~ transmit a content capturing request including the content identification to said receiving device over a broadband network-, wherein the content data is adapted to be received by said receiving device over said broadband network from a content providing information processing apparatus.

21.   (CURRENTLY AMENDED) The program according to Claim 20 wherein said program is operable to ~~effect the step of transmitting~~ control the apparatus to transmit a Web page containing said content identification to said separate device over said mobile communication network.

22.   (CANCELLED)

23.   (CANCELLED)

24.   (CANCELLED)
